

HoloPresenter^{mobil} Brilliant Mobility

The **HoloPresenter^{mobil}**:

Elegant design in glass
and stainless steel

Maximum brilliance by
means of outstanding
contrast and high luminosity

Mobile use, can be folded up
and stored in a handy case

Can be set up for use within
minutes, even in broad day-
light and outdoors

Takes up very little space
when assembled

Complete with beamer

Optional: Mini PC

HoloProTM makes a real impression in meeting rooms. And anyone who wants to take fascination to their customers or to fairs will be interested in the compact **HoloPresenter^{mobil}**.

The projection system, packed securely in a case, is easy to carry and just as easy to set up.

The sophisticated folding mechanism means that the presentation can be started in the shortest of time, be it via laptop, DVD player or DVBT receiver. Thrill your customers with the special brilliance and elegance of the 30" screen (60 x 45 cm).

HoloProTM

Eye-catching Transparency

Here or there – then somewhere else in an instant.

Function:

The **HoloPresenter mobil** fits into any car boot and is therefore ideal for presentation on location. The projection system is packed securely in a case and is easy to carry. A sophisticated folding mechanism enables the **HoloPresenter mobil** to be set up and prepared for the presentation at the customer's location in a minute. Laptops, PCs or DVD players can be used as sources. We can also provide a super-compact Mini PC as an optional extra. Thrill your customers with the special brilliance and elegance of the 30" screen (60 x 45 cm), which appears to float in the air thanks to the patented **HoloPro™** technology. Increase your **HoloPro™** sales and convince your customers with competent advice.
